I have accessed the resources of the Learning package "How to write scientific works" written and offered to me freely by professor Nutu Catalin Silviu. The methods and advices included therein have helped me to write and to successfully present my final graduation thesis entitled: "Signal analysis and processing with a case study for photovoltaic panels"

2021, Graduate of the Faculty of Electromechanical Engineering, Calin Andrei

The Learning Package "How to write scientific works" written by prof. Catalin Silviu Nutu was very useful in helping me to write my graduation thesis. The eBook and the advices and practical examples of my scientific advisor, PhD Catalin Nutu can help any scholar willing to improve himself to write his own scientific papers

Faculty of Electromechanical Engineering,

Field: Electrical Engineering

2020, Bîrligă Andrei Ionel

Professor Nutu Catalin Silviu was my scientific advisor for my graduation thesis. His eBook, "How to Write Scientific Works" has been very helpful to draw up and present my Bachelor's thesis.
Faculty of Navigation and Maritime Transport, Bachelor's Degree
2018, Governor Isaiah Ebibai

As undergraduate student, I have been guided by assoc. prof. Catalin Silviu Nutu according to ideas and principles from the Learning Package "How to write scientific works" and I have successfully graduated with my Bachelor's Thesis entitled "The Analysis of Defects of the Induction Motors" with 90 out of possible 100 points.

Faculty of Navigation and Maritime Transport, Bachelor's Degree in 2017
